

ICP 2

Name: Priya Varsha Tarlapally

The task given under ICP_2

Goals:

The goal of this ICP is to understand various HTML tags, how to write the CSS file, how to link the CSS file with the HTML file.

The tasks given under this ICP are as follows.

HTML Task

Create an HTML document named "index.html". The Web page should consist of different HTML classes

As a part of this task, a HTML file is created and in a single file various examples of HTML tags are explained. I have used paragraph tag, div tags, span elements, two different types of lists, images, video with minimum controls, hyperlinks.

Code snippets:

Index.html

```
1 <!DOCTYPE html>
2 <html>
3 <head>
4   <title>Google Analytics</title>
5 </head>
6 <body>
7
8   <!-- Headings h1 and h2 -->
9
10  <h1 style="text-align: center">Google Analytics</h1>
11  <h2 style="text-align: center">Google Analytics is a web analytics service offered by <span style="color:darkgoldenrod"><em>
12  <div>
13    <p style="text-align: center"><strong> Below are some the images of the interesting Dashboards designed using Google Ana
14    <ul> <!-- unordered list -->
15      <li><a href="images/HTML_1.jpg" target="_blank"></a></li>
16      <li><a href="images/HTML_2.jpg" target="_blank"></a></li>
17      <li><a href="images/HTML_3.jpg" target="_blank"></a></li>
18    </ul>
19  </div>
20  <br>
21  <div>
```

Headings and unordered list

```

<!-- headings h1 and h2 -->

<h1 style="text-align: center">Google Analytics</h1>
<h2 style="text-align: center">Google Analytics is a web analytics service offered by <span style="color:darkgoldenrod"><em>
</div>
  <p style="text-align: center"><strong> Below are some the images of the interesting Dashboards designed using Google Ana
  <ul> <!-- unordered list -->
    <li><a href="images/HTML_1.jpg" target="_blank"></a></li>
    <li><a href="images/HTML_2.jpg" target="_blank"></a></li>
    <li><a href="images/HTML_3.jpg" target="_blank"></a></li>
  </ul>
</div>
<br>
<div>

```

Ordered list, paragraph, strong tag, div elements

```

<div>
  <p style="text-align: center"><b> Here are few related analytics </b></p> <!-- paragraph tag -->
  <ol> <!-- ordered list -->
    <li><em>Google Analytics 4 properties <span style="color:red"> Business 2 community </span></em></li>
    <div></div>
    <li><em>Google Analytics Sampling <span style="color:red"> Data Studio</span></em></li>
    <div></div>
    <li><em>Google Analytics Coding free data sources <span style="color:red"> Geckoboard </span></em></li>
    <div></div>
  <br>
</ol>

Cricket is a sport which is played between two teams of eleven players each who score runs (points). This is done by hitting the ball across the boundary, or by running between two sets of three small, wooden posts called wickets. The wickets are at each end of a rectangle of short grass called 'the pitch'. The pitch is inside a much larger oval of grass called the 'area of play'. The area of play is a 30 yard circle inside the cricket ground or stadium

The game started in England in the 16th century. The earliest definite reference to the sport is in a court case of 1598. The court in Guildford heard a coroner, John Derrick, that when he was a scholar at the "Free School at Guildford", fifty years earlier, "he and diverse of his fellows did run and play [on the common land] at cricket and other players". Later, the game spread to countries of the British Empire in the 19th and 20th centuries.
